Essay Ideas

TG

Can you help me come up with a topic idea for this assignment, "You will write a research paper or case study on a leadership topic of your choice." I would like it to include Blake and Mouton's Managerial Leadership Grid and possibly a historical figure.

Certainly! How about exploring the leadership style of Abraham Lincoln using Blake and Mouton's Managerial Leadership Grid as a framework for analysis? This topic would allow you to examine Lincoln's leadership approach during a critical period in American history and evaluate it in the context of the leadership grid.

To get started, you could delve into the basics of Blake and Mouton's Managerial Leadership Grid, which focuses on two dimensions of leadership behavior: concern for people and concern for production. The grid places leaders into one of five categories: impoverished,

HOW THIS WILL AFFECT PUBLISHING

Authorship

This depends on whether or not people decide that ChatGPT contributes enough to papers to be considered an author.

Labor

The less writing that authors have to do, the less their workload is, but errors are everywhere.

Jobs

Publishing companies may decide to use ChatGPT instead of editors.

AUTHORSHIP

It can't take
responsibility.

It can't
create ideas.

It can't differentiate between
good and bad information.

01

CHATGPT

Any work that uses ChatGPT would have to add ChatGPT or the developers of ChatGPT as an author.

02

PROGRAMS

Programs such as Grammarly are considered AI and they use algorithms. Should they be included as an author since they can edit the work?

03

COMPUTER

Would computers then have to be cited as an author? Or would programs that do work for papers be cited instead?

04

CALCULATORS

Calculators also take off some of the workload from authors. Would they have to be added?

POSSIBLE ACTIONS

This software would have to be able to detect whether or not a work had been created using ChatGPT.

DEVELOP A SOFTWARE

Either individual publishing companies or associations could put regulations in place about using ChatGPT.

CHANGE RULES

False information floods the internet, from where ChatGPT gets its information.

REMOVE FALSE INFO

Update copyright laws so that intellectual property will be more protected from AI technology.
