Slavery and Justice Report

BROWN UNIVERSITY'S

SLAVERY AND JUSTICE REPORT

WITH COMMENTARY ON
CONTEXT AND IMPACT

Confronting History

In 2006, Brown released its groundbreaking *Report of the Brown University Steering Committee on Slavery and Justice*, confronting and publicly documenting the University's complex history with the transatlantic slave trade and its legacies of inequity and injustice. The second edition, released by the University 15 years later, offers insights into the Report's persistent and evolving impact both on Brown's campus and across the nation and world.
