AI / ChatGPT

How does ChatGPT Produce Literary Work?

Researchers gave ChatGPT the literary work of author H.P. Lovecraft, taught ChatGPT his style, and ChatGPT copied it. University students in Spain could not tell the difference.

Today Authors are using AI to help them develop the setting and character of a story. Some say this leads to increased quality and quantity of their work. Others are using it entirely to become what they deem themselves to be, a writer.

Literature

"... champions writing that is artful, dynamic and original." – Tin House
